

Diversified Industrial Products
**High Quality, Low Cost
Manufactured Parts**

**ISO 9001 & AS 9100 Certified
Leaders in Quality and Service**

Delivering Savings to Manufacturers Worldwide

Diversified Industrial Products has been delivering tremendous value to original equipment manufacturers and their suppliers for over 25 years. Through our network of qualified, best-in-class global manufacturers, Diversified is uniquely positioned to provide our customers with a single source for high quality metal and plastic parts and assemblies at the lowest possible acquisition cost. Our ability to continually deliver cost savings while maintaining the highest standards for service excellence and quality control has established Diversified as a proven supplier to many of today's leading industrial manufacturers.

“Our Mission is to help our manufacturing customers keep their competitive edge by providing world-class quality parts at the lowest possible cost.”

–Richard Chusid, President

Benefits of Working With Diversified Industrial Products

- Access a global network of qualified, best-in-class manufacturers
- Capitalize on the latest in technology and R & D
- Eliminate excess overhead, capital investment, and inventory carrying costs
- Presentation of first-article inspection samples eliminates risks associated with change
- Outsourcing production enables clients to focus on innovation and value-added processes

Bottom Line: We deliver world-class quality at a significantly lower cost.

Manufacturing Capabilities

- Aluminum, Brass & Bronze Castings
- Aluminum, Brass & Bronze Forgings
- Bearings & Bushings
- Copper & Aluminum Tubes & Fittings
- Metal & Rubber Molded Designs
- Plastic Injection Molds & Finished Parts
- Plating, Powder Coating, PVD Finish
- Precision Turning, Milling & Grinding
- Screw Machine & Swiss Machine
- Stampings
- Steel Castings & Forgings
- Zinc Injection Moldings

* *We are always working to expand our manufacturing capabilities. If its not listed, please inquire with your sales representative.*

Additional Services

- Full service stocking and distribution capabilities for JIT delivery
- Rapid first-article production and inspection working from samples or drawings
- Private label branding and packaging available for distributors

Core Markets Served

- Aerospace & Defense
- Automotive
- Chemical Processing
- Commercial & Residential Construction
- Communications & Electronics
- Energy
- Food & Beverage
- Marine/Shipbuilding
- Medical/Pharmaceutical
- Metal & Plastics Fabrication
- Pumps, Tanks & Valves
- Tool & Die

Some of Our Distinguished Customers

- BAE Systems
- Boeing
- General Dynamics
- Hewlett Packard
- Honeywell
- ITT
- ITW
- Lockheed Martin
- Northrup Grumman
- Parker Hannifin
- Raytheon
- Rolls Royce
- Sundstrand
- Teleflex
- Texas Instruments
- United Technologies
- U.S. Government

How To Get Started

- Contact your DIP sales representative to discuss your initial manufacturing requirements. Our team of highly skilled product engineers will also be available to discuss any critical technical matters.
- Send in a sample part along with drawings (if available) in any electronic or paper format.
- We will submit a firm quotation in full conformance to all specification requirements within 7-10 business days.
- First-article samples will be supplied promptly for your inspection and approval prior to acceptance of each order.

Our Total Quality Commitment

At Diversified Industrial Products, "quality" is not just a word; it is a philosophy. All of our professionals are keenly aware of the mission-critical nature of the manufactured parts and assemblies we supply to our clients. That is why we have implemented stringent quality control protocol certified to ISO 9001 and AS 9100. All of the material you receive from a Diversified facility will be packaged securely and will arrive with full documentation and traceability. Blueprints and samples are retained on file to assure continued conformance once first article inspection approval has been achieved. Additionally, our Q.C. professionals benchmark our internal quality performance along with those of our approved suppliers on a continual basis. Only 100% conformance to shipments that arrive on time and according to specification will be deemed acceptable.
