

Diversified Industrial Products

Specialty Metals & Precision Parts for 35+ Years

ISO 9001

AS9100

*An ISO 9001:2008 & AS9100C
Quality Certified Company*

DIP: Company Overview

- **Sourcing and Distribution Specialists for a broad range of Raw Materials and Machined Metal Products for 35+ years.**
- **Our Supply Chain Services will Lower Costs and Reduce Inventory to create a Competitive Advantage for your business.**
- **Serving Quality Critical industries including Aerospace & Defense, Power & Energy, Air & Filtration, Communications, Flow Control and Metalworking.**
- **Approved suppliers to leading OEMs including Honeywell, Lockheed, UTC, Boeing, GE, Moog, Ametek, and ITT**
- **Committed to Quality: *ISO 9001:2008 & AS9100C Certified***

Product Line – Raw Materials

- Aluminum
- Stainless Steel
- High Temp Alloys
- Brass & Copper
- Carbon & Alloy Steel
- Nickel Alloys
- Titanium
- AQ & Vac Melt Steel
- Tantalum & Tungsten
- Plastics & Resins

Carried in the following forms:

- Sheet, Strip, Plate & Coil
- Round, Square & Rectangular Bars
- Forged Bars, Cut Blocks & Castings
- Tubing in Both Standard & Custom Sizes
- Extrusions & Shapes
- Machined Metal Parts Complete Per Print

**This is an overview of our most common alloys. If your item is not on our list please inquire and we will offer a quote.*

Product Line – Machined Parts

- Turned Parts
- Milled Parts
- Stamped Parts
- Castings
- Tube Welding & Fabrication
- Machined Extrusions
- Production offered both Domestically & Globally

Primary Machined Alloys:

Aluminum

Stainless Steel

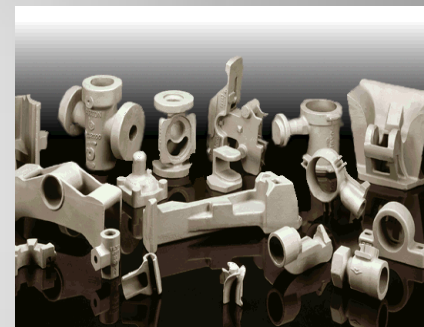

High Temp & Nickel Based Alloys

Brass & Copper

Carbon & Alloy Steel

Titanium

Zinc

**All parts supplied complete per print including secondary processes. First articles with complete inspection documentation and material certifications supplied with all orders.*

Supply Chain Services

“We understand the pressures our customers face to lower inventory costs while still maintaining supply flexibility. We offer numerous programs that will keep goods off your floor until you are ready to work with them.” *Richard Chusid, President*

Fixed Price LTAs: Assures price stability in a fluctuating market

Blanket Orders: Assures uninterrupted supply with goods on our floor for release as needed. Goods ship within 3 days of release.

Consignment Programs: Goods are on your floor but will only be invoiced upon use. Eliminates lead time while minimizing time spent placing, expediting & tracking orders.

Benefits of Working with DIP

- ✓ Unit Cost Savings (PPV)
 - ✓ Increased Supply Flexibility
 - ✓ Lower Inventory Costs
 - ✓ Improved Cash Flow
- ✓ *LTAs and distribution programs enable procurement to focus more on strategy, less on transactional (“putting out fires”)*
